

Proposed changes to HGV delivery times

November 2018

During main construction of the proposed Wylfa Newydd Power Station, Heavy Goods Vehicles (HGVs) will be used to transport some materials and equipment to site. We are proposing to change when these deliveries can take place, to build flexibility and resilience into the construction programme.

The DCO application

In June 2018, we submitted our application for a Development Consent Order (DCO) to build and operate Wylfa Newydd. In it, we proposed that the majority of HGV deliveries would happen between 7am and 7pm, Monday to Friday, with a maximum of 160 HGV deliveries per day. We used this to assess the project wide effects to road traffic.

Proposed changes

Since then, we have examined the construction programme and identified a need to increase the proposed delivery windows. This would allow us to manage unexpected events such as bad weather affecting delivery by sea or traffic delays, while making sure that local traffic flows and communities are not unduly affected.

We are proposing to:

- extend the weekday (Monday to Friday inclusive) delivery window into the evening, to include deliveries between the hours of 7pm and 11pm (limited to a maximum of 20 HGV movements); and

- include an additional delivery window on Saturday mornings between 8am and 1pm (limited to a maximum of 50 HGV movements).

The peak number of HGV deliveries per weekday and per month would remain the same as specified in our DCO application. With additional mitigation, no new or different likely significant environmental effects are predicted to occur. All other assessments submitted as part of the DCO application would remain unaffected by the proposed changes.

The changes are explained in more detail in the technical document available as part of this consultation.

We welcome your views

If you have any comments on these proposed changes, you can give us your feedback by 6 December 2018 by emailing us at wylfaenquiries@horizonnuclearpower.com or by writing to us free of charge at **Freepost WYLFA NEWYDD**. If you have any queries, please give us a call on 0800 954 9516.
